

Introducing a New Generation of Tools for Independence

Apple's iPod touch® /iPad™ and Conover Company's Functional Skills System™

Now you can use the popular iPod touch and iPad loaded with all of the videos from our **Functional Skills System** to teach and reinforce critical functional life, social, math, literacy and work skills necessary for freedom and independence. Use this new mobile, assistive technology tool to take your classroom instruction out into the community and increase independence!

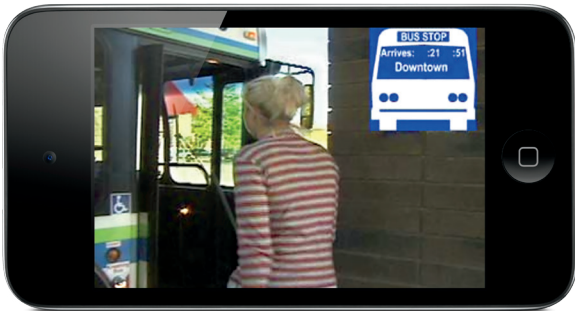

Basic iPod touch Package \$3,495.00

Get an iPod touch, loaded with all of our Functional Skills System videos and applications, when you purchase our complete Functional Skills System. Programs included in the Functional Skills System are:

- 19 Functional Life Skills programs
- 6 Functional Social Skills programs
- 3 Functional Math Skills programs
- 3 Functional Work Skills programs
- 7 Functional Literacy Skills programs
- 4 Functional Skills Samplers

You can use the 3,350+ videos and applications to plan out your learner's day. With our **Functional Skills System** content, this is one of the most powerful auditory and visual prompting tools available today.

Purchase our **Functional Skills System** videos preloaded on an iPod touch and receive all 42 of our **Functional Skills System** iPod touch applications for free! Visit www.conovercompany.com/freeapps for details.
