Programs for Emotional Intelligence

Conover®

Onsite and distance learning anytime, anywhere and on any device.

Conover *Online* Pro™

Conover Online Pro™ is a research-based approach for assessing and teaching personal success skills needed in all areas of life. These are just a few of our programs focused on improving emotional intelligence.

Quick Facts

- 1,000+ short video scenarios
- No reading required (full audio)
- Self-paced, user-directed learning
- No installation/setup required
- Accessible on computers & mobile devices
- Simplified data-tracking
- Comprehensive reporting options

Pay Only for What You Use

Credits are how you deliver content to your users in Conover Online Pro™. Credits never expire, and can be used for anything in the Conover Online Pro™ product catalog. Pay only for what you need. That means you never overpay! Access to the comprehensive data and individual reports are provided at no additional cost!

Cloud-Based Convenience

Conover Online Pro™ provides immediate access because there is no installation required. Once an assignment is made, the user can access it until it is fully completed. Each user's progress is saved when exiting the unit, so when logged in again, the program picks up right where the user left off, even if it is on a different computer or device.
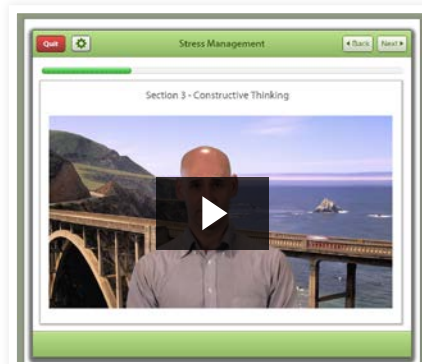

Built-in Accountability

Real time data tracking is built in to the Conover Online Pro™ system. Everytime a user completes a unit, the data is stored in our revolutionary management system and compiled into a comprehensive report that can be used to identify areas that need to improve and to track a user's progress throughout the process.

Emotional Intelligence/Soft Skills
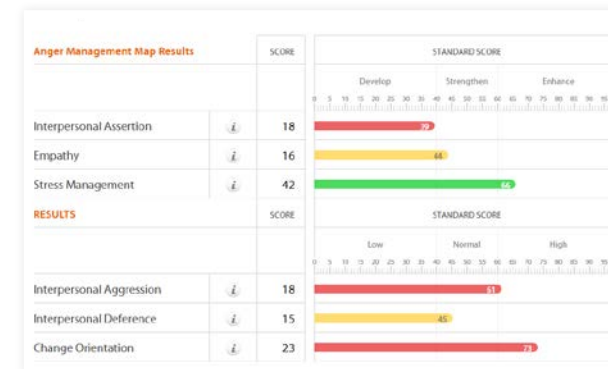

Success Profiler®

The Success Profiler, *Anxiety Management*, *Anger Management*, and *Bullying Prevention* Programs are all systematic, research-based assessment and skill building systems designed to improve Emotional Intelligence (EQ).
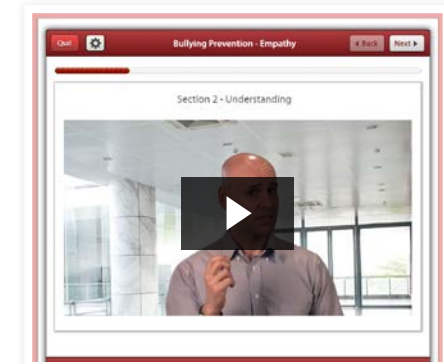

Anxiety Management

Anxiety is in all of our lives. When anxiety and resulting depression overtake our lives it can impact our health, relationships and personal success. Our *Anxiety Management Program* teaches how to manage anxiety through learning self-control, managing stress and improving physical wellness.

Anger Management

Violent behavior is often the result of stressful events that trigger the inability to control an overwhelming sense of anger. *The Anger Management Program* teaches a positive alternative to violence, and, in turn, helps to develop a healthy personality, void of the destructive behaviors related to anger and abuse.
Bullying Prevention

Bullying Prevention focuses on developing an emotionally competent personality in which personal needs are met outside of the bullying process. *Bullying Prevention* addresses both sides of the bullying process, the bully or giver and the target or receiver.

Emotional Intelligence/Soft Skills

Personal Responsibility

Personal Responsibility - Managing Goal Achievement helps users develop the ability to set clear goals and, most importantly, develop the necessary skills to help them successfully achieve those goals.
Workplace Readiness

The Workplace Readiness Credential is a research-based assessment and skill building system for soft skills. Included in the system are such critical soft skills such as attitude, communication, critical thinking, teamwork and much more.

Winning Colors®

Now more than ever we all need to learn to accept the differences in the people we meet. *Winning Colors* teaches the four behavioral communication types that drive all behavior. People who have learned these types and know how to use this knowledge will have a better understanding of what drives another person's behavior and how to better work with that individual and avoid conflict.
